

Salon Concert General Lay of the Land

What do I need?

The space

An area in your home or local venue that will seat 30 or more guests

The Chairs

Access to folding chairs and pillows in addition to your furniture for indoor or backyard comfort.

The Audience

Most house concerts are filled by friends and neighbors. Some hosts open the event to the public or promote to local groups.

The Cost

Guests each donate \$25.00-40.00 that goes directly to the artists. It is understood that sometimes this ticket price can be a hurdle. I am more than open to discussing how to accommodate everyone who would like to come.

The Time

Concerts last total of 1.5-2 hours. This can include two sets by artist and a 15-20 minute intermission, or just one long set. I usually check in with the crowd to see where we're all at. More often than not, we opt for one longer set.

Sleeping Arrangements

If the artist (me) is from out of town, generally the host will provide clean accommodations and a simple breakfast unless otherwise arranged.
